HILTON RENEWABLES

WHO WE ARE

Hilton Renewables is a leading solar EPC (Engineering, Procurement & Construction) and material supply company, offering turnkey solar power solutions for residential, commercial, and industrial projects.

We specialize in solar panel installations, energy storage, grid integration, and maintenance.

Our expertise spans from land acquisition, regulatory approvals, installation, commissioning, and long-term maintenance to networking, security, and administrative support through our parent company, Hilton Infotech.

- RESIDENTIAL SOLAR
- COMMERCIAL SOLAR
- SOLAR EPC PROJECT
- SOLAR O & M.
- SOLAR I & C
- SOLAR STREET LIGHT

FOUNDER & LEADERSHIP

Hilton Renewables was founded by **Shashikant Solanki**, a dedicated leader in the renewable energy sector, aiming to drive India's transition towards clean and sustainable energy.

HILTON
RENEWABLES

OUR VISION

To become a leading solar energy provider, empowering businesses and individuals with sustainable, cost-effective, and high-performance solar solutions, while contributing to a greener future.

OUR MISSION

- Deliver high-quality, efficient, and affordable solar energy solutions
- Reduce carbon footprint by promoting renewable energy adoption
- Ensure seamless project execution with world-class materials and services
- Support industries and businesses in achieving energy independence

WHAT WE DO

Solar EPC (Engineering, Procurement & Construction) Services

Solar Piling Work
Strong foundation for long-lasting performance

MMS (Module Mounting Structure) Work
Secure & durable mounting for maximum efficiency

AC & DC Electrical Work
Reliable power systems with transformers & inverters

Cable Laying & Termination
Safe & efficient wiring with proper grounding

Solar Plant Boundary Solutions
Precast walls & chain-link fencing for security

Solar Plant Material Supply & Installation

Solar Panels (Mono/Polycrystalline, Bifacial)

Inverters (String & Central)

Batteries (Lithium-ion, Lead Acid)

Solar Cables & Conductors (High-quality AC/DC wiring)

Transformers & Switchgear (HV/LV Transformers, Circuit Breakers)

SCADA & Monitoring Systems

HILTON RENEWABLES

HOW WE WORK

STEP 01
Consultation & Feasibility Study

Assess energy needs and site feasibility.

STEP 02
Design & Engineering

Custom solar design for efficiency.

STEP 03
Procurement & Installation

High-quality components for reliable power.

STEP 04
Testing & Commissioning

Performance testing and grid connectivity.

STEP 05
Operation & Maintenance (O&M)

Regular care for long-term efficiency.

SUSTAINABLE SOLUTIONS | QUALITY ASSURED | RELIABLE PERFORMANCE

HILTON RENEWABLES

TRUSTED BY INDUSTRY LEADERS

OUR CLIENTS

Powering Progress Together

Hilton Renewables is proud to partner with industry leaders driving a **sustainable future.**

Hilton Renewables has successfully executed projects for **industry leaders**, including:

- Aditya Birla Renewables
- Aayana Renewables Ltd.
- O2 Power
- Tata Project
- Drastha Power
- Construction Company
- IT Company

More than 10 other major solar EPC clients

PROVEN EXPERTISE | QUALITY ASSURED | SUSTAINABLE SOLUTIONS | RELIABLE PARTNER

HILTON RENEWABLES

Powering a Sustainable Tomorrow

RENEWABLE ENERGY | SMART SOLUTIONS | LASTING IMPACT
